Hi Everyone,

Our re-arranged meeting this month will see us back at the village hall, unfortunately not on our usual Monday evening as these are booked for other users but, hopefully most of you will be able to make it on Tuesday 27th as I am sure the talk about the SS Montgomery will be very interesting. There are several reasons why we have chosen to use the village hall again for our next two meetings, but the main ones are: better parking, safer access and more facilities. I know several of our members struggled last time with the uneven ground and lack of a footpath at the scout hut and with the darker evenings approaching fast and the possibility of slippery surfaces we thought it would be safer to use the village hall again. I look forward to seeing you there.
